

Its 3D EYE

India's first 3D service platform

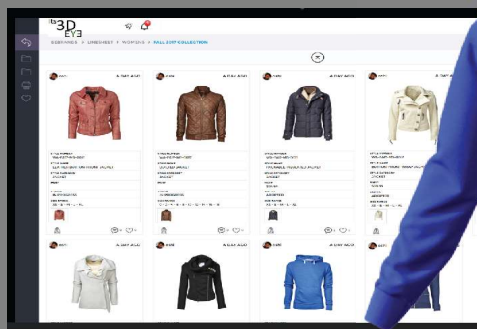

Quick service process of prototype with efficient & affordable

Its 3D EYE is committed to making Digital 3D prototyping as seamless as can be. For this reason, our process enables designers to simply upload any pattern file in dxf format & tech sheet directly.

Our intuitive work process also enables designers to freely communicate with the 3D artists using annotations on the actual virtual simulation resulting in faster corrections & realistic 3D simulations more in line with the designer's vision. With digital fashion, designers gain quick result with 3D simulations like never before. Only Virtuality fashion can achieve attractive 3D simulations without requiring in house pattern makers or 3D simulators.

Another advantage is that our global Freelancers of experts is at your service nearly 24/7 and can assure best quality across a wider range of products. We can handle fashion accessories, bag and more – compared to other solutions on the market which are limited to garments. Once the designs are ready, the tech pack, pattern & fabric is simply uploaded to our online service. Depending on quantity, 3D samples will be ready for review within hours.

Our team of top professionals is trained at building the model as per customer measurements. Customer no need of invest hard dummy and 3D Software with operators.

Powered by INDUSTRIAL TECHNOLOGY SERVICES

3D ASSET CREATION

TASK UNDERTAKEN

- 2D Pattern Making
- 3D Proto Sample
- Digital Manniquine Creation
- Pre production sample
- 3D Trims creation
- Colourways with rendering image
- WebGL service
- Virtual Showroom

Notes

- 1) including 3D Virtual Prototype with up to two revisions.
- 2) including one colorway with a single revision
- 3) Additional colorways
- 4) For bulk orders please contact us
- 5) Prices are based on average complexity per product group.
